TC

Agenda Item No. 1(F)1

**TO:** Honorable Chairperson Barbara Carey-Shuler, Ed. D. and Members, Board of County Commissioners **DATE:** February 12, 2004

**SUBJECT:** Application by Excel Transportation, Inc. d/b/a Excel Jitney for modification of a Passenger Motor Carrier Certificate of Transportation

**FROM:**   
George M. Burgess  
County Manager

## RECOMMENDATION

It is recommended that the Board approve the application of Excel Transportation, Inc. d/b/a Excel Jitney to modify existing Passenger Motor Carrier Certificate of Transportation No. 123, authorized by R-1304-92, and modified by R-259-98, to provide jitney service.

## BACKGROUND

On February 17, 1981, the Board of County Commissioners adopted Ordinance 81-17, subsequently amended by Ordinance 85-20 on April 16, 1985, Ordinance 98-123 on September 3, 1998, and Ordinance No. 02-1 on January 29, 2002, which regulates the passenger motor carrier industry in Miami-Dade County under Chapter 31 of the Code of Miami-Dade County.

Section 31-103 of the Code provides the procedures to be followed by Miami-Dade County in processing certificate applications. Based on those requirements, a public hearing has been scheduled before the Transportation Committee of the Board of County Commissioners. At the conclusion of the public hearing, the Board may issue or refuse to issue the certificate, or issue the certificate with such modifications or upon such terms and conditions as in its judgment the public interest may require. In reaching its determination, the Committee and the Board shall consider the application, the County Manager's report and recommendation, all matters presented at the public hearing, and among others, the following criteria:

- (1) That the applicant is fit, willing and able, in accordance with the requirements of this section, to provide the transportation to be authorized by this certificate and is able to comply with this article and regulations of the Commission.
- (2) That the transportation to be provided under the requested certificate is consistent with the public interest.
- (3) That the proposed transportation service will improve the quality of transportation available to the public.

- (4) That, if applying for jitney or fixed route authority, the proposed transportation will not adversely affect the existing transportation system as a whole or future planned transit service as designated in the most current Miami-Dade Transportation Plan. In particular, it shall be deemed not in the public interest to authorize certificates of transportation for service on actual transit or passenger motor carrier corridors where service presently exists at average frequencies of twenty-nine minutes or less and/or where such service will impair special transportation provided by the passenger motor carrier industry.

### ANALYSIS

Yves Polynice, President of Excel Transportation, Inc. d/b/a Excel Jitney, located at 1665 NW 121 Street, Miami, Florida 33167, seeks to modify Passenger Motor Carrier Certificate of Transportation No. 123 to provide expanded jitney service. This is an existing route which has been operated by the applicant since approval was granted by the Board in 1992. The route modification, which is attached, includes an extension from NE 9<sup>th</sup> Avenue and NE 167<sup>th</sup> Street to NW 87<sup>th</sup> Avenue and NW 192<sup>nd</sup> Street. The Service Planning Division, formerly under the Office of Public Transportation Management (OPTM) and currently under Miami-Dade Transit, determined that the proposed route modification is in compliance with the criteria of Section 31-103 (g) (4) of the Miami-Dade County Code.

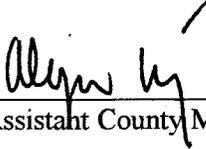

Transportation services will be provided using chauffeur-driven vehicles with a seating capacity of at least nine (9) or more, but no more than 15 passengers, excluding the driver, between the hours 5:00 a.m. and 10:00 p.m., seven days a week. The proposed rates are \$1.25 per person, one way.

The management plan submitted by Mr. Yves Polynice, President of Excel Transportation, Inc. d/b/a Excel Jitney, includes maintenance, communication, and record keeping systems and meets the requirements of the Code. All required financial statements and credit references have been submitted and the proposed service standards adequately meet passenger transportation and comfort needs. A background investigation reveals no criminal conviction for the applicant within five years of the date of the application.

In accordance with Section 31-103 (e) of the Code, a 20-day notice of application was provided to all affected municipalities within Miami-Dade County, all existing PMC Certificate Holders, and interested parties affording them an opportunity to protest the application. One protest was filed by Ernest Johnson, President of Gray Cab Company d/b/a Sun Jitney, who requested that the applicant revise the route. The applicant did revise the route and the protestant verbally agreed to withdraw the protest. However, the protestant did not withdraw the protest in writing, and the Department proceeded with the administrative hearing on October 24, 2003. The protestant failed to appear and no hearing was

conducted. Under the Code, the protestant has the burden of proof in these instances and he has waived his rights to any further protest against this application.

**DATE:** May 1, 2003

**FROM:** Danny Alvarez, Executive Director  
Office of Public Transportation Management

**SUBJECT:** Jitney Route Review  
Excel transportation, Inc.  
(PMC Control No. 512)

The Service Planning Division of the Office of Public Transportation Management analyzed the jitney route application of Excel Transportation Inc. in accordance with Section 31-103(g)(4) of the Miami-Dade County Code, as amended by the new Ordinance No. 02.1. relating to Regulation of Passenger Motor Carriers.

Based on the results of the analysis Service Planning Division of the Office of Public Transportation Management (OPTM) has found that the application of Excel Transportation Inc. is in compliance with the criteria established in the Miami-Dade Code, such that it would not adversely affect the existing transportation system as designated in the People Transportation and the most current Transit Development Program (TDP).

## MEMORANDUM

Agenda Item No. 2(r)

TO: Honorable Mayor and Members  
Board of County Commissioners

FROM: *Joaquin G. Avino*  
Joaquin G. Avino, P.E., P.L.S.  
County Manager

DATE: November 17, 1992

SUBJECT: Application for  
Issuance of a  
Certificate of  
Transportation

**RECOMMENDATION:**

It is recommended that the Board, at the conclusion of the public hearing, consider the application of Excel Transportation, Inc., d/b/a Excel Jitney, Inc., and approve the certificate as requested.

**BACKGROUND:**

On February 17, 1981, the Board of County Commissioners adopted Ordinance 81-17, subsequently amended by Ordinance 85-20 on April 16, 1985, which regulates the Passenger Motor Carrier Industry in Dade County under Chapter 31 of the Code of Metropolitan Dade County.

Section 31-103 of the Code provides the procedure to be followed by Metropolitan Dade County in processing certificate applications. Based on these requirements, a public hearing has been scheduled before the Board of County Commissioners. At the conclusion of the public hearing, the Board may issue or refuse to issue the certificate or issue it with such modifications or upon such terms and conditions as in its judgment the public interest may require. In reaching its determination, the Board shall consider the application, the County Manager's report and recommendation, all matters presented at the public hearing, and among others, the following criteria:

- (1) That the applicant is fit, willing and able in accordance with the requirements of this section, to provide the transportation to be authorized by the certificate, and is able to comply with this article and regulation of the commission.
- (2) That the transportation to be provided under the requested certificate is consistent with the public interest.
- (3) That the proposed transportation service will improve the quality of transportation available to the public.
- (4) That, if applying for jitney or fixed route authority,

the proposed transportation will not adversely affect the existing transportation system as a whole or future planned transit service as designated in the most current Metro-Dade Transportation Plan. In particular, it shall be deemed not in the public interest to authorize certificate of transportation for service on actual transit or passenger motor carrier corridors where service presently exists at frequencies of thirty (30) minutes or less and/or where such service will impair special transportation provided by the passenger motor carrier industry.

**ANALYSIS:**

Excel Transportation, Inc., d/b/a/ Excel Jitney, Inc., located at 1665 N.W. 121 Street, Miami, Florida 33167, seeks to obtain a Passenger Motor Carrier Certificate of Transportation to provide jitney transportation service on a semi-fixed route as follows: Starting at the corner of N.E. 127th Street and N.E. 14th Avenue, west on N.E. 127th Street to N.E. 10th Avenue, north on N.E. 10th Avenue to N.E. 159th Street, west on N.E. 159th Street to N.W. 2nd Avenue, south on N.W. 2nd Avenue along the Memorial Highway corridor to North Miami Avenue, south on North Miami Avenue to N.W. 146 Street, west on N.W. 146 Street to N.W. 2nd Avenue, south on N.W. 2nd Avenue to N.W. 86 Street, west on N.W. 86 Street to N.W. 5 Avenue, north on N.W. 5 Avenue to N.W. 146 Street, east on N.W. 146 Street to North Miami Avenue and return. \* Serves only in one direction from: N.W. 146 Street and 2nd, south to N.W. 86 Street and N.W. 2nd Avenue, and from N.W. 87 Street, N.W. 5 Avenue to N.W. 146 Street and N.W. 5 Avenue. Hours and days of operation are 7:00 a.m. to 9:00 p.m., seven days a week, using vehicles with a seating capacity of nine to fifteen (15) passengers excluding the driver, with rates at \$1.00 per person one-way.

The management plan submitted by the applicant indicates that the business facility includes maintenance, communication, and record keeping systems and meets the requirements of the Code. All required financial statements and credit references have been submitted and the proposed service standards adequately meet passenger transportation and comfort needs. A background investigation revealed no criminal record for the applicant.

A Metro Dade Transit Agency analysis shows little or no conflict with existing jitney services or duplication of Metrobus service. The MDTA analysis determined that the proposed route is in compliance with the criteria of Section 31-103(g)4 of the Metropolitan Dade County Code.

of a Passenger Motor Carrier  
Certificate of Transportation  
(PMC Control No. 313)

## RECOMMENDATION

It is recommended that the Board approve the application of Excel Transportation, Inc. d/b/a Excel Jitney, Inc. to modify and extend Passenger Motor Carrier Certificate of Transportation No. 123, authorized by R-1304-92, to provide jitney service.

## BACKGROUND

On February 17, 1981, the Board of County Commissioners adopted Ordinance 81-17, subsequently amended by Ordinance 85-20 on April 16, 1985, which regulates the passenger motor carrier industry in Dade County under Chapter 31 of the Code of Metropolitan Dade County.

Section 31-103 of the Code provides the procedures to be followed by Metro-Dade County in processing certificate applications. Based on those requirements, a public hearing has been scheduled before the Board of County Commissioners. At the conclusion of the public hearing, the Board may issue or refuse to issue the certificate, or issue the certificate with such modifications or upon such terms and conditions as in its judgment the public interest may require. In reaching its determination, the Board shall consider the application, the County Manager's report and recommendation, all matters presented at the public hearing, and among others, the following criteria:

- (1) That the applicant is fit, willing and able in accordance with the requirements of this section, to provide the transportation to be authorized by this certificate and is able to comply with this article and regulations of the commission.
- (2) That the transportation to be provided under the requested certificate is consistent with the public interest.
- (3) That the proposed transportation service will improve the quality of transportation available to the public.
- (4) That, if applying for jitney or fixed route authority, the proposed transportation will not adversely affect the existing transportation system as a whole or future planned transit service as designated in the most current Metro-Dade.

Transportation Plan. In particular, it shall be deemed not in the public interest to authorize a certificate of transportation for service on actual transit or passenger motor carrier corridors where service presently exists at frequencies of thirty (30) minutes or less and/or where such service will impair special transportation provided by the passenger motor carrier industry.

### ANALYSIS

Excel Transportation, Inc. d/b/a Excel Jitney, Inc., located at 1665 NW 121 Street, Miami, Florida 33167, seeks to modify Passenger Motor Carrier Certificate of Transportation No. 123 to provide expanded jitney transportation service. This is an existing route which has been operated by the applicant since approval was granted by the Board in 1992. The route modification, which is attached, eliminates some areas and extends service from NW 86 Street to downtown Miami. The total route will be 22 miles. The Metro-Dade Transit Agency (MDTA) analysis determined that the proposed route modification is in compliance with the criteria of Section 31-103 (g) (4) of the Metropolitan Dade County Code.

Transportation services will be provided using chauffeur driven vehicles with a seating capacity of at least nine (9) or more, but no more than 15 passengers, excluding the driver, between the hours of 7:00 a.m. and 9:00 p.m., seven days a week. The proposed rates are \$1.25 per person, one way. The management plan submitted by Mr. Yves Polynice, President of Excel Transportation, Inc., includes maintenance, communication, and record keeping systems and meets the requirements of the Code. All required financial statements and credit references have been submitted and the proposed service standards adequately meet passenger transportation and comfort needs. A background investigation reveals no criminal record for the applicant.

In accordance with Section 31-103 (e) of the Code, a 20-day notice of application was provided to all affected municipalities within Dade County, all existing PMC Certificate Holders and interested parties affording them an opportunity to protest the application. Five protests were filed by: Liberty City Jitney, Alphe Willingham, Dade Jitney, Alto Screen, and Ernest Johnson. The protesters allege conflict of the applicant's route with their existing jitney routes. Liberty City Jitney and Dade Jitney allege that the proposed route extension filed by Excel Transportation is within close proximity of their existing routes and that it effectively provides no new service for which a need has been identified.

Pursuant to the provisions of the Code, an administrative hearing was conducted during which the Hearing Examiner received comments from the above-named protesters. The Hearing Examiner recommended denial of the protest as indicated in the Hearing Examiner's report. Staff concurred with the recommendation of the Hearing Examiner and prepared the item for Commission consideration.

Subsequently, staff met with the applicant and the protesters to determine if the latter continued to have concerns regarding the applicant's route. The protesters requested that a revision be made in the downtown area of the proposed route. The applicant agreed and modified the route. MDTA determined that the modification is in compliance with the criteria of Section 31-103 (g) (4) of the Metropolitan Dade County Code. Because the applicant modified his route, the protesters agreed, in writing, to withdraw their protest of the application. A copy of the agreement is attached.

The applicant's citation history is concentrated in the period of March through December, 1993. There is no current citation history.

**DIRECTIVES**

No directives were received.

ARTICLE III. PASSENGER MOTOR  
CARRIERS\*

Sec. 31-101. Transportation policy.

To assure the development and maintenance of a safe, healthy and efficient passenger transportation system for Miami-Dade County, the Commission, County Manager and County staff, in carrying out the duties and responsibilities prescribed in this article, shall consider the following as being in the public interest:

- (1) Reliance on market forces and on actual and potential competition among all transportation modes, so as to provide transportation services at competitive prices.
- (2) Coordination of regulatory decision-making with the transportation improvement plan, and the orderly development of an integrated transportation/transit system for Miami-Dade County so as to ensure the development and maintenance of a transportation/transit system responsive to the needs of the public, in which regulatory decisions are reached fairly and expeditiously, and with consideration of their costs and benefits.
- (3) Improvement of motor vehicle safety.
- (4) Achievement of County, national and State energy conservation goals.
- (5) Reduced concentration of market power, and prevention of unfair, deceptive, predatory or anticompetitive practices.
- (6) Reduction of restrictive regulatory barriers to entry into the industry and promotion of equal opportunities.
- (7) Promotion of the safety and welfare of the residents and visitors of Miami-Dade County who use the services of passenger motor carriers to meet their transportation needs.

\*Editor's note—Ord. No. 81-17, adopted Feb. 17, 1981, did not specify manner of codification; therefore, inclusion of §§ 2—16 as Art. III, §§ 31-101—31-115, has been at the editor's discretion.
